

Title: Michigan House Bill 5430

Subject: GAP Waivers and Vehicle Value Protection Agreements

Summary:

Michigan House Bill 5430 is part of the package of bills pursued by GAPA to create a statutory framework for Vehicle Value Protection Agreements (VVPA). The bill amends the retail installment sales act to change existing references to “guaranteed asset protection waiver” to “motor vehicle financial protection product” instead.

The bill also makes other technical and conforming changes.

House Bill 5430 is part of a package along with House Bills 5429, 5431, and 5432 and will only take effect if HB 5429 is enacted.

If passed, the legislation would take effect immediately and would apply to a motor vehicle financial protection product that becomes effective 180 days after enactment.
